Professional Experience

Android Developer

Moby Inc.

04/18 – Present

- Lead developer for Pagliacci Android app that allows a user to store profile information, favorite menu items, earn rewards, and place orders.
- Created and implemented the application motion design.
- Used a MVVM code style to build a reactive and flexible interface.

Design Developer

Aquent LLC (Microsoft, Edge)

01/18 – 03/18

- Rebuilt Microsoft Edge prototyping platform from ground up to create a modular codebase for rapid iteration.
- Utilized UWP C#/XAML to work with visual and motion designers to create interactive software.

UX Design Technologist

Amazon

07/15 - 07/17

- Utilized React and React Native to build components for the Alexa app on iOS and Android platforms.
- Enabled the UX Design and User Research teams to identify and solve interaction questions with rapid and highly customizable on-device software.
- Worked in an agile environment to create working software within two-week sprints.

Product Developer II

Yoh LLC (Microsoft, Xbox)

04/13 - 06/15

- Technical lead on the 3hr, 15+ screen takeover of Times Square for the Xbox One launch event.
- Conceptualized and developed interactive content for attendees at the Times Square takeover.
- Used C#/XAML to create live broadcast executive presentations for the Xbox One reveal, E3(2013), Microsoft company meeting, and other highly viewed events.

Android Developer

Creative Circle (Teague)

12/12 - 04/13

- Using PhoneGap and HTML5, created a custom Android OS prototype connecting to various services such as Instagram and Twitter to populate personalized data.

Software Development Engineer II

Wimmer (Microsoft, Xbox/Windows)

07/11 - 08/12

- Developed with C# and JavaScript to build Windows 8 core applications. (Music, Video, etc...)
- Refactored several legacy codebases to comply with the new structure and coding style.

Lead Solutions Architect

FILTER, LLC

09/09 - 07/11

- Responsible for overseeing digital projects from concept to delivery.
- Provided strategy and creative solutions for software products.
- Managed small teams for software development and technical growth.

Flash Developer

Vendaria Media Inc

04/08 - 08/09

- Delivered products in an agile environment for companies such as Home Depot and Staples.
- Built custom interactive kiosks for events such as CES and E3.
